## SERIES FEATURES

**EVO** BALL CONTROL AND QUICK RELEASE

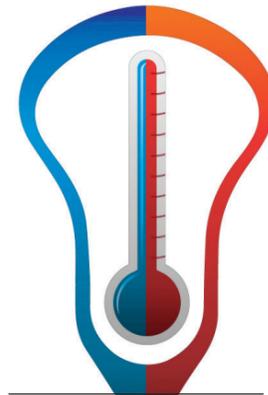

**BURN** SHOT SPEED AND ACCURACY

**NEMESIS** LIGHTWEIGHT AND EXTREMELY STIFF

## POSITIONAL ICONS

- A** ATTACK
- M** MIDFIELD
- D** DEFENSE
- G** GOALIE
- I** INTERMEDIATE
- Y** YOUTH
- J** JUNIOR

## HEAD TECHNOLOGY

Dynamic hybrid thermoplastic which increases stability and consistency in various environments and conditions. Therma-Loc+ retains its stiffness properties up to 50% better than standard nylon lacrosse heads.

Thermoplastic that provides elite performance in all temps.

Targeted flex zones in the scoop and bottom rail for superior hold and accuracy.

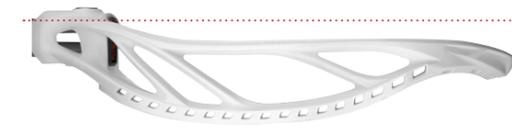

Symmetrical sidewall design - the inside of the sidewall mimics the outside, reducing weight without sacrificing stiffness. The result is a perfectly balanced head.

Max design reinforces areas to dramatically increase stiffness and durability allowing players to throw Extreme check with no worries.

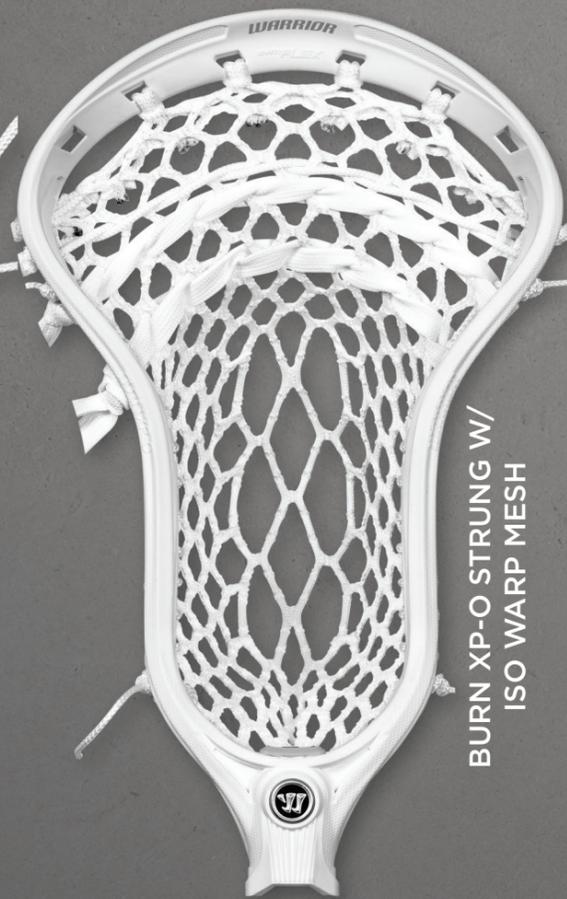

Reduces head rattle providing more stability and consistency. As the screw inserts into the shaft, the legs of the Loc-Throat spread, providing both internal and external pressure for a more secure fit.

Lowers the sidewall below the centerline of the shaft - this lowers the center of gravity in your head, giving you the ability to create a deeper pocket for added ball control and shot power.

WARP | M E S H

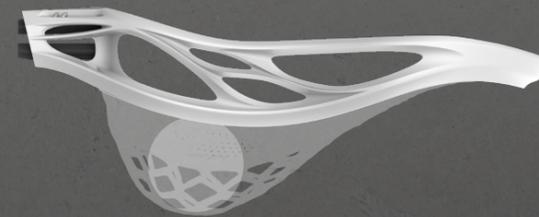

ISO Warp Mesh isolates the state-of-the-art Warp knitting technologies and lets you have a fully customizable experience. Consistency is the name of the game with ISO Warp Mesh. ISO Warp Mesh comes pre-stretched to cut down on unwanted break-in time. Knitted with the best available materials, ISO Warp Mesh is resistant to varying weather elements giving you the peace of mind knowing your custom setup will perform regardless of the conditions. 8 diamond soft mesh with an enlarged channel provides superior control, hold, and feel. ISO Warp Mesh is the best of both worlds for the modern stringer, young or old...Gain the advantage with ISO Warp Mesh.

# WARP

Warp molded technology offers a fully integrated pre-form pocket/head combination. Each Warp pocket is designed and engineered for each head for performance, resulting in a head/pocket combination with unmatched consistency. Built with the best available materials, the Warp is resistant to varying weather elements giving you the peace of mind knowing your setup will perform regardless of the conditions. Our Warp products come game ready off the shelf and require no stringing or adjustments, leaving you more time on the field playing and less time fixing your stick.

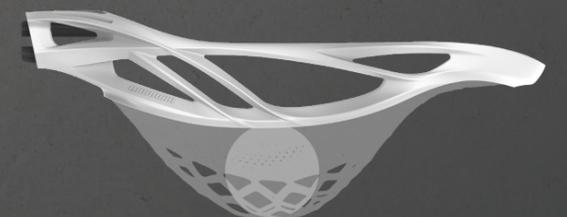

## WARP POCKET PLACEMENT

5th generation pocket technology is knitted from 3 hydrophobic materials to provide consistent pocket performance in all weather conditions. We utilize multiple knit patterns based on head type to provide ideal pocket placement, feel, and release.

### MID-LOW POCKET

Our Warp Pro mid-low pocket is built for ball control and quick release. Ideal for attackmen or a midline playmaker that need to get their passes and shots off quickly.

### MID POCKET

Our Warp Pro mid pocket is built for power. Ideal for a midline or attackman that is looking to maximize shot power and accuracy from outside.

## WHIP LEVEL

LOW WHIP allows for the quickest release. HIGH WHIP gives added hold for shot power.

- Highly anticipated update to the iconic Evo unstrung head. The QX2-O is built for the elusive ball carrier who relies on ball control and quick release.
- New Thermo-Loc+ hybrid thermoplastic resin retains stiffness by up to 50% better than standard nylon heads in various temps... leading to more consistency and a quicker release.
- New Fuelcore sidewall truss orientation holds its shape exponentially by spreading force evenly across the sidewall.
- Higher pinch for a longer channel with more hold and consistency.
- Scoop diffuser with strategically placed ridges to reduce drag on groundballs
- Bottom rail designed for Mid to Low pocket placement for superior ball control and quick release.
- Optional LOC-THROAT feature; insert LOC-THROAT for better head to handle attachment, leave out for light weight performance.
- Meets all NFHS, NCAA, Lacrosse Canada, and World Lacrosse men's field specifications.

# BURN FO RECOVERY

## FACE SHAPE RETENTION

Warrior's pure resin boosts head shape recovery and allows players to pass and shoot with confidence after each face-off battle.

## BURN FO - RECOVERY

ITEM CODE: BFORU2 (UNSTRUNG)  
COLOR: CLR (CLEAR)

- Warrior's pure resin boosts head shape recovery and allows players to pass and shoot with confidence after each face-off battle.
- Designed and engineered asymmetrically to provide balance between flex, strength and recovery.
- Universal pinch design accommodates multiple face-off styles.
- Increased throat stiffness and shorter throat design allow for additional leverage and control.
- Meets all NFHS, NCAA, Lacrosse Canada, and World Lacrosse men's field specifications.

## BURN FO

ITEM CODE: BFOUN (UNSTRUNG)  
COLORS: WH, BK  
ITEM CODE: BFOWDGE  
COLORS: WH (WITH WEDGE)

- Face-off specific head designed with Gold Medalist and NCAA Champion Trevor Baptiste.
- Designed and engineered asymmetrically to provide balance between flex, strength and recovery.
- Universal pinch design accommodates multiple face-off styles, traditional or face-flex.
- Left-rail -flex-back to help with gaining position to control the ball on 50/50 battles.
- Super stiff throat designed to hold shape after the toughest battles.
- Shorter throat design allows for additional leverage and control.
- Meets all NFHS, NCAA, Lacrosse Canada, and World Lacrosse men's field specifications.

ITEM CODE: WWEDGE19 (WEDGE ACCESSORY)

- Warrior wedge is designed to aid in widening throat area to regain throat shape.
- Ideal for face-off specialists.

# SHAFTS

## CARBON SHAFT MATERIALS

### MINIMUS CARBON

Ultralight and high-strength carbon fiber is engineered with multiple layers and orientations to give strategic flex and impact performance.

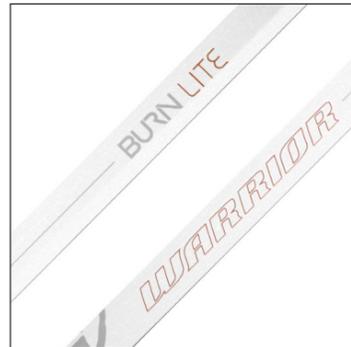

### BURN CARBON

Our stiffest carbon fiber layered to provide balance between weight and impact performance. Unidirectional weave, to provide balance between lightweight performance and strength.

### CARBON LITE

Our most flexible carbon fiber layered to provide all-around lightweight performance and durability.

## ALLOY SHAFT MATERIALS

### POWERED BY KRYPTO-PRO

Our most premium 7000 grade material, this is our lightest handle material. The manufacturing process has been refined by Warrior's top material engineers to make this the strongest and lightest of Krypto-Pro material we have developed to date.

### POWERED BY KRYPTOLYTE

The most popular handle material in the Warrior lineup - made from performance grade 7000 aluminum and provides all-around lightweight performance and durability.

## SHAFT DIE SHAPES

### CONTROL DIE SHAPE

Superior stick control and yields the best strength to weight ratio in any of our materials. Featured in the new Evo handle series.

### SPEED DIE SHAPE

Traditional shape with rounded edges makes for a softer feel and yields the lightest weight in any of our materials. Featured in the Burn handle series.

## SHAFT GRIPS

### NEW - TACTICAL GRIP

Full length raised grip shaft that provides superior feel with less wear and tear on your gloves.

### DOT MATRIX GRIP

Raised grip located on key areas of the shaft for complete control and less wear and tear on your gloves.

### DIAMOND GRIP

Sandblasted texture embossed directly into the handle that provides great touch, adds no weight and never wears off.

### NO GRIP

Classic feel with no added textures or coatings. For players who like to add their own tape pattern, or just keep it smooth.

To measure your head circumference, wrap a tape measure around your head above your eyebrows and across your temples.

## GLOVE & PROTECTIVE TECHNOLOGY

### IMPAX LT

Lightweight HD foam segmented in key areas for superior impact performance.

### SINGLE DENSITY FOAM

Medium density foam provides a great balance between flexibility and impact deflection.

### LOCK THUMB +

Built with injection molded ABS plastic, memory foam, & high-density foam for high-powered impact absorption.

### IMPAX

High Density foam molded and segmented in key impact areas for high impact performance.

### FLOATING CUFF

Patented internal wrist cuff that is attached to the glove with small elastic straps.

### LOCK THUMB

Built with memory & HD foam for high-powered impact absorption - ABS plastic backing prevents backbend.

### BONESYSTEM

#### BONE SYSTEM

Molded PE (poly-ethylene) board layered in with other foam in key impact zones to provide improved impact performance.

### SEI CERTIFIED STERNUM

Meets NOCSAE performance standard ND200 for Commotio Cordis.

### SHOULDER SYSTEM

Patented shoulder system allows the primary and secondary shoulder cap to collapse into themselves as the arm moves to help provide additional flexibility.

### DUAL DENSITY FOAM

Utilizes denser foam on the outside to deflect impact and lower density foam on the inside to provide comfort.

## FIT/COMFORT TECHNOLOGY

### AXYFLEX

#### AXYFLEX

Backhand and cuff tech that promotes peak flexibility.

### AUTHENTIC PROPALM+

#### AUTHENTIC PRO PALM +

We stripped out all the additional overlays and mesh inserts, and designed a simple palm featuring AX Suede Fit which is our thinnest palm material. This palm has tons of stretch to provide a comfortable form fit, great durability, and is water resistant. Lycra gusset at base of the thumb maximizes stretch and reduces palm bunching.

### NO-SLIP GEL PRINT

Specialized grip applied inside arm pad sleeve that reduces pads from sliding down your arm during play.

### CLOUD CUFF

#### CLOUD CUFF

Our latest glove cuff that provides max flexibility.

### AUTHENTIC PROPALM

#### AUTHENTIC PRO PALM

This AX Suede Tiempo palm provides a comfortable fit. Built in AX Suede 10W overlay on index and middle finger provides maximum durability.

### 2-TIMER STRAP

Gives players the ability to adjust both ends of the Velcro strap to provide the most ideal fit.

### TOTAL FLX +

#### TOTAL FLX +

This cuff eliminates the bulk of traditional cuffs for maximum mobility and wrist rotation.

### LOWPRO

Our lowest profile pad that delivers superior impact performance.

## LINER/SLEEVE TECHNOLOGY

### WARTECH AC

#### WARTECH A/C

Moisture management material that is cool to the touch even on the hottest days for unbelievable comfort.

### WARTECH

#### WARTECH

Moisture management material that helps wick moisture away from the body.

### WARTECH FLX

#### WARTECH FLX

2-way stretch, moisture wicking material that provides comfort & flexibility while keeping you dry.

### FLX MESH

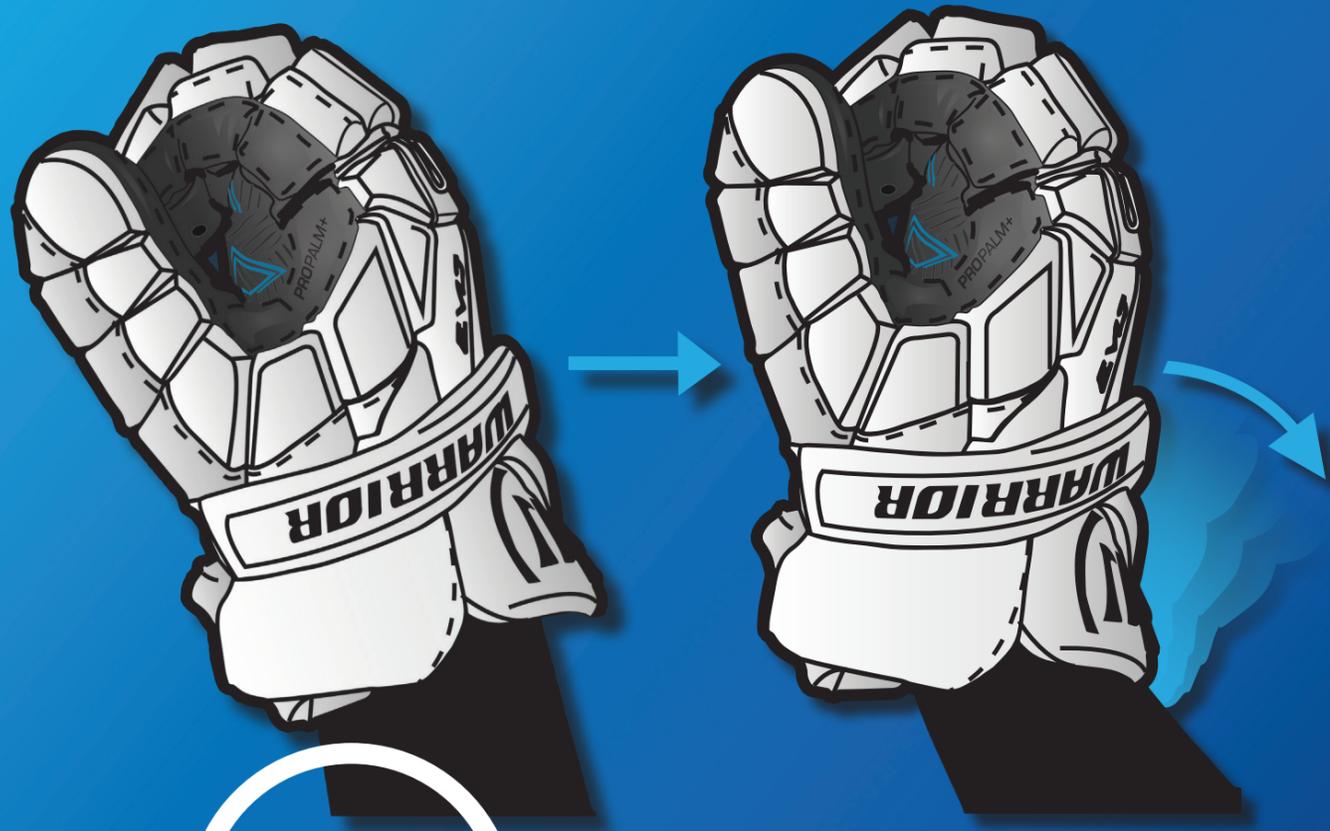

Breathable single stretch mesh sleeve that provides a snug fit to improve overall flexibility.

Patented/Patent Pending Warp™ technology offers the very first, fully integrated pre-form pocket/head combination. Each Warp pocket is designed and engineered for each head to maximize performance, resulting in a head/pocket combination with unmatched consistency. Built with the best available materials, the Warp is completely resistant to varying weather elements giving you peace of mind knowing your setup will perform regardless of the conditions. Our Warp products come game ready off the shelf and require no stringing or adjustments, leaving you more time on the field playing and less time fixing your stick.

**NO STRINGING. NO ADJUSTMENTS.  
A REVOLUTION IN WOMEN'S LACROSSE**

**BRINE WARP FAMILY**

The Dynasty Warp Pro are fully integrated, elite-level head and pocket combinations designed to deliver unmatched consistency, hold and pin-point accuracy.

The Dynasty Warp Next is built for intermediate players looking to refine and master the fundamentals of stick handling and ball control.

The Dynasty Warp Jr is designed to give the beginners the best possible playing experience, ideal for learning the fundamentals of the game.

**PLAYER LEVEL ICONS**

Our expanded line of strung sticks gives you control of your pocket. Our newest model, the Edge Pro+, offers Warp consistency with our newest ISO Warp mesh runner pocket and the flexibility to make it your own. Whether you are looking for top tier innovation, standard mesh, or a traditional feel, we have a stick option for you.

HEAD TECHNOLOGY

**THERMA - LOC+**

Dynamic hybrid thermoplastic which increases stability and consistency in various environments and conditions. Therma-Loc+ retains its stiffness properties up to 50% better than standard nylon lacrosse heads.

**LOC-THROAT**

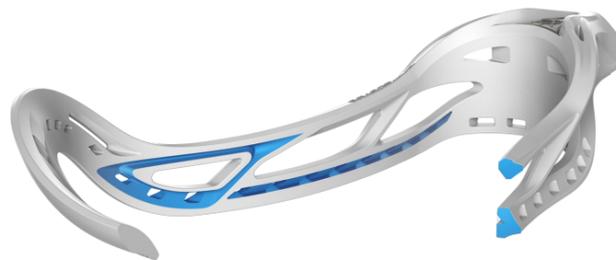

**LOC-THROAT**

Patent pending system eliminates head rattle providing more stability and consistency. As the screw inserts into the shaft, the legs of the Loc-Throat spread, providing both internal and external pressure for a more secure fit.

**STRATEGIC CORE-TECH**

Material is cored out of specific locations of the sidewall; this reduces weight while maximizing stiffness. The result is a more accurate head.

**TRUOFFSET**

By positioning the head below the shaft, the ball is naturally driven to the sweet spot for quick release and ball control without bagging out the pocket.

NEW

**EDGE PRO+  
ON EDGE PRO CARBON**

- The Edge Pro + incorporates Therma-lock+ technology, a stiffer resin designed to perform in all temperatures
- Built with our updated Truoffset technology! The top & bottom rails drop from the ball stop toward the scoop creating a direct route for the ball to flow toward the sweet spot
- An engineered flex profile in the upper third of the head allows the head to flex with the ball creating a tighter channel on shots and passes
- Features our newest ISO Warp mesh runner piece that is designed with stiffer vertical runners and varying diamond sizes for maximum hold
- ISO Warp Mesh Runner pocket features the weather resistant properties of our Warp technology, so your pocket won't lose shape and remains consistent during inclement weather
- The pre-knit 'tails' at the bottom of the pocket provides quick, easy adjustments on the fly
- Edge Pro Carbon handle is engineered with a high-strength, lightweight carbon composite weave making this our lightest handle
- Shape- Octagonal, Size- Mid-diameter, Grip- Tactical grip finish
- Meets US Lacrosse, NFHS & World Lacrosse specifications
