TRUE TEMPER[®]
SPORTS

TRUE TEMPER SPORTS IS A **LEGACY.**

Hand-built by artisans and craftsmen, passing down shop-honored traditions and expertise you can't learn from a book. Our hammers and sweat are the tools of our trade. And the innovation we bring to sport is the fruit of our labor.

True Temper Sports have won more PGA tournaments in the history of golf than all other brands combined. Over the last 100 years, True Temper Sports' product portfolio of performance-enhancing products has evolved and expanded to include the hockey, lacrosse, and baseball markets. Whether it be in our continued dominance of the golf shaft market or in the introduction of market-leading advancements in other sporting goods categories, there is a continued focus and determination to be the best. **A determination to be an organization that creates transformational technologies that help improve player performance.**

FOUR SPORTS ONE TEAM

WE ARE A FAMILY OF PLAYERS
WITH DEEP ROOTS.

500+

TECHNICAL/BRANDING INNOVATIONS
INCLUDING PATENTS PENDING,
TRADE SECRETS, AND TRADEMARKS

1 BILLION+ GOLF SHAFTS SOLD

2

3 MILLION+ HOCKEY STICKS SOLD

We started with golf. Now over a century later, we're finding ways to innovate in hockey, baseball, and lacrosse. Sports with different needs, but each bound by a never-ending obsession with being the best. In other words, domination through innovation.

As a family, True Temper Sports might cover different ground. But we're one dedicated team. And just like any team, we're stronger as a unit than we are on our own. Because we don't just share the load. We share a singular drive to be the best on every course, sheet of ice, and field we touch.

And now, more than ever before in the past 100 years, we're the tightest we've ever been as a team, even as our family grows. We are obsessed with being the best. And that means being true to the product. **True to the game. And true to each other. Period.**

WE ARE OBSESSED WITH BEING THE BEST. THAT'S TRUE.

In 2014, True Temper Sports entered the consumer hockey market with the launch of the True Temper Hockey. In just under seven years, True Temper Hockey is widely regarded as a leader in innovation and the fastest-growing brand in hockey. From a series of patented stick technologies, a category-changing custom skate offering, and more recently the addition of the revered and iconic Lefevre goalie line, the True Temper Hockey family continues to raise the bar through its game-changing, performance-enhancing products.

MISSION: TRUE TEMPER HOCKEY IS DETERMINED TO OFFER THE MOST INNOVATIVE AND PERFORMANCE-ENHANCING PRODUCTS ON THE MARKET.

VISION: TO BE THE LEADING PERFORMANCE-ENHANCING HOCKEY EQUIPMENT MANUFACTURER ON THE PLANET.

VALUES:

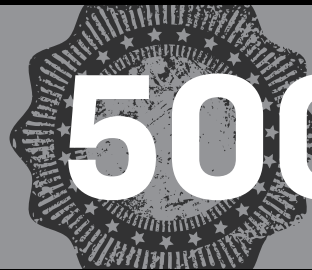

- 1 INNOVATION //** A RELENTLESS PURSUIT OF CATEGORY-CHANGING TECHNOLOGY.
- 2 CRAFTSMANSHIP //** UNMATCHED PRECISION AND CARE PUT INTO EVERY PRODUCT THAT CARRIES THE TRUE NAME.
- 3 AUTHENTICITY //** A COMMITMENT TO STAYING TRUE TO THE GAME.
- 4 PASSION //** OUR TEAM HAS AN UNRIVALLED ENERGY AND PASSION FOR THE GAME AND ITS PRODUCTS.
- 5 TEAMWORK //** 100 YEARS OF DOMINANCE ACROSS 4 DIVISIONS COMING TOGETHER TOWARDS ONE GOAL.

ENGINEERED FROM THE ICE UP.

True Temper Hockey is the only company that owns and operates our own factories in sticks, skates, and now goalie equipment, controlling our product from idea creation right through to distribution.

INTRODUCING //

HZRDUS

*LIGHTWEIGHT BUILD. EXPLOSIVE RELEASE. **ZERO COMPROMISE.***

WITH A LEGACY FIRST ESTABLISHED ON GOLF COURSES ACROSS THE GLOBE, HZRDUS IS NOW PRIMED TO MAKE ITS MARK ON THE ICE.

But no matter the sport, HZRDUS is a brand built for players, by players. For the first to suit up and the last to leave. For those on a relentless quest to cement their own legacy as champion and inspiration for generations to come. For those destined to become a danger to any competition they face. **That's HZRDUS.** Now, it's time to bring the HZRDUS legacy to the ice.

At TRUE, we've worked tirelessly to incorporate new and improved technology into the first-ever HZRDUS hockey stick. **The result?** A jaw-dropping mix of lightweight power and puck-connectedness allowing players to shoot the puck with explosive aggression and increased performance every time.

*TRUE HAS ALWAYS BEEN DRIVEN BY A NEVER-ENDING OBSESSION WITH BEING THE BEST. **HZRDUS ONLY ADDS MORE FUEL TO OUR FIRE.***

LIGHTWEIGHT BUILD

ADVANCES IN TECHNOLOGY HAVE LED TO A MORE CONSISTENT MANUFACTURING PROCESS, OFFERING INCREASED DURABILITY AND WEIGHT REDUCTION.

OPTIMIZED LOW KICK PROFILE

CORE TECHNOLOGIES

- Focused Resin Flow (RESFLO) technology minimizes voids, resulting in a stronger, more consistent laminate.

- The Tri Rib Tech (TRT) structure provides optimized durability in an ultra-lightweight design. Strategic Rib placements throughout the blade are designed to match puck impact points, providing a more stable blade structure on impact, leading to more accurate and powerful shots.

- PLD, Precision Laminate Design, emphasizes how fiber angles, and the order of those angles, are optimized in up to 25 layers of unidirectional carbon fiber in a single shaft.
- Designed to provide both stiffness and impact strength in every layer, PLD allows engineers to reduce weight and increase impact strength.

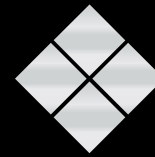

- Our patented Axenic Technology combines a compression molded shaft into a true one-piece stick.
- Industry-leading Axenic Technology results in a seamless build, putting the player's hands in direct contact with the puck.

HZRDU PX

FOR YEARS WE WERE
BEST-IN-CLASS, NOW WE'RE IN
A CLASS OF OUR OWN //

HZRDU

MANY COMPANIES PROMISE GREATNESS – WE DELIVER IT.

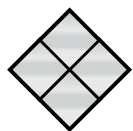

TRUE TEMPER HOCKEY PROMISES TO CHANGE THE LANDSCAPE OF THE STICK CATEGORY IN 2022 WITH THE INTRODUCTION OF THE **HZRDU PX**, A TRULY ASPIRATIONAL PRODUCT THAT WILL RAISE THE BAR IN PRODUCT PERFORMANCE. AN ENGINEERING FEAT, THE HZRDU PX IS A COMBINATION OF THE MOST STATE-OF-THE-ART MATERIALS AND ADVANCED MANUFACTURING PROCESSES ON THE PLANET, LEADING TO THE **LIGHTEST STICK ON RECORD** AND THE MOST EXPLOSIVE POWER OF ANY TRUE STICK TO DATE.

THE PERFORMANCE BAR HAS OFFICIALLY BEEN RAISED.

UPDATED FLEX PROFILE

Mid kick profile offers a stiff taper zone to maximize control.

OUR CATALYST COLLECTION FEATURES IMPROVED TECHNOLOGIES FOR **INCREASED DURABILITY AND FEEL.**

Our spread tow fabric, PLD, and PASS technologies increase overall strength, and when paired with BAT technology throughout the blade, reduces overall stick weight for effortless power and optimal control.

CORE TECHNOLOGIES

PLD

- PLD, Precision Laminate Design, emphasizes how fiber angles, and the order of those angles, are optimized in up to 25 layers of unidirectional carbon fiber in a single shaft.
- Designed to provide both stiffness and impact strength in every layer, PLD allows engineers to reduce weight and increase impact strength.

BAT

- The 2021 CATALYST series incorporates all-new BAT, Braided Aramid Tech, for a stronger blade with increased damping properties.
- Leveraging our BRT+ expertise, BAT is built with new lower-density Aramid fibers, instead of carbon, providing a lightweight, more consistent blade.

PASS

- New PASS, Performance Advanced Strengthening System, results in a 25% increase in strength over our historic XCORE technology.
- The increase in strength allows for a less rigid blade and prevents premature foam breakdown for increased blade durability.

AXENIC TECHNOLOGY

- Our patented Axenic Technology combines a compression molded shaft into a true one-piece stick.
- Industry-leading Axenic Technology results in a seamless build, putting the player's hands in direct contact with the puck.

IMPROVED TECHNOLOGY

ENGINEERED FOR STRENGTH

Featuring PLD technology that optimizes 25 layers of carbon fiber, the CATALYST 9X is designed with an advanced laminate construction to reduce overall stick weight without impacting durability. The laminate construction optimizes fiber angles and provides both improved stiffness and impact strength.

NEW BAT TECHNOLOGY

DESIGNED FOR CONTROL

Yielding greater blade consistency and vibration damping properties on impact, our BAT technology incorporates lightweight braided aramid sleeves from the heel to the toe of the blade for a softer feel with superior accuracy.

SPREAD TOW FABRIC

OPTIMIZED WEIGHT

59% lighter than the fabric used in the 2019 XC9, our all-new, high-quality spread tow fabric encapsulates the CATALYST 9X shaft and blade, providing unmatched strength in a lightweight build for shot consistency and power.

*The stated weight of the stick is not intended to, and should not be relied upon to, calculate the actual weight of the stick. Variances may result in the actual weight of the stick for numerous reasons, including, and without limitation: manufacturing tolerances, the endcap weight, the length of the stick, the blade pattern and stiffness of the stick, performance considerations, cosmetics, packaging, any post-manufacturing modifications / additions (such as the grip, knob sticker, or consumer packaging), and/or other reasons.

PERFORMANCE IN AFFORDABILITY

Offering CATALYST core stick technologies, the CATALYST 3X is for the player looking for value in performance.

UFLEX: THE DEVELOPING PLAYER'S STICK.

True Temper Hockey has developed four flex ratings, each with an optimized length for junior players of varying heights and weights. Choosing the right stick in the UFLEX line will help junior players maximize the performance of the stick during shooting and passing.

NO CUTTING CORNERS.

At True Temper Hockey, our UFLEX stick options are made with the same innovative technologies that can be found in our senior model sticks, providing developing players with the same performance benefits as our pro athletes.

PRO GRADE. PRO PERFORMANCE.

By enhancing UFLEX sticks with the same patented technologies that the pros enjoy, TRUE offers junior players an increase in confidence and an optimized game time experience. Whether you are looking to take your game to an elite level or are just learning to play, TRUE has the right stick option for you.

SELECTING THE RIGHT STICK.

The flex of a stick is measured by the amount of weight needed to flex it, which will directly impact the performance a player can achieve with the stick. Selecting the right flex allows players to optimally direct their energy into the shaft, resulting in more accurate, harder, faster shots, better stickhandling, and improved passing.

HRDUS CATALYST

UFLEX OPTIONS

Selecting the right flex rating allows players to maximize the flex energy load into the shaft, resulting in harder and faster shots.

True Temper Hockey has developed four flex ratings, each with an optimized length for junior players of varying heights and weights. Choosing the right stick in the UFLEX line will help junior players maximize the performance of the stick during shooting and passing.

SIZE CHART

	57"	FLEX 20			FLEX 30		FLEX 40		FLEX 50	

The above chart is a guide that will help position each player with the right stick. However, there may be instances where the suggestions are not applicable to an individual player for a number of reasons. We strongly encourage all consumers to consult their local authorized TRUE retail staff who can help validate final stick choice for each individual player's needs.

By enhancing their sticks with the same patented technologies that the pros enjoy, TRUE Hockey offers junior players an optimized game time experience. TRUE technologies collide to provide them with the same confidence as their favorite NHL stars.

OPTIMIZED SHOT VELOCITY

Selecting the right flex rating allows players to maximize the flex energy load into the shaft, resulting in harder and faster shots.

GREATER ACCURACY & CONTROL

The flex of a stick is measured by the amount of weight needed to flex it, which will directly impact the performance a player can achieve with the stick. Selecting the right flex allows players to optimally direct their energy into the shaft, resulting in more accurate, harder, faster shots, better stickhandling, and improved passing.

SELECTING THE RIGHT STICK

ELITE PREMIUM

Using the same innovative technologies found in our senior stick models, the HZRDUS PX UFLEX options provide developing players with the same elite performance as our pros.

PREMIUM

Offering CATALYST core stick technologies, the CATALYST 9X premium youth stick is the ideal stick for players looking for elite performance with unmatched accuracy, control, and power.

LEARN TO PLAY

Offering a number of CATALYST stick technologies, the CATALYST 3X elevates both entry level players and players looking to grow within the game. Learn to play your way with the all-new CATALYST 3X stick.

CORE TECHNOLOGIES

INCREASED HANDLE DURABILITY

- Different to our ASERIES '20 collection, the CATALYST '21 family features an improved rounded corner shaft, and when combined with our new steeper shoulder angle from paddle to handle, offers ultimate feel and added grip while stickhandling.

OPTIMIZED IMPACT STRENGTH

- All-new PLD, Precision Laminate Design, optimizes the angles of carbon fiber layers throughout the shaft, increasing impact strength and offering optimal stiffness while reducing weight.

IMPROVED PADDLE WEIGHT

- By incorporating lightweight braided aramid sleeves throughout the paddle, blade, and heel, we've designed an improved braided rib system, BAT, which provides a damped feel and optimized balance and durability throughout play.

REDESIGNED FLEX ZONE

- The redesigned higher flex zone within the CATALYST '21 paddle is optimized for easier, faster loading times and more powerful passes while clearing shots.

TF PLAYER SKATE

THE TF FAMILY HAS RAISED THE BAR FOR THE PERFORMANCE-LEVEL CATEGORY IN 2020 AND BEYOND.

Built from the inside out using the same proprietary manufacturing process as our Pro Custom Skates, relying heavily on data collected from over 20,000 foot scans, the TRUE TF9 and TF7 provide both players and goalies with a whole new level of fit and performance in an off-the-shelf design.

CORE TECHNOLOGIES

The TF9 is designed for players seeking the performance benefits and best-in-class fit that's synonymous with TRUE skates. Through its thermoformable carbon fiber one-piece shell, versatile SHIFT holder, and adjustable tongue system with pro-grade tongue, the TF9 skate delivers elite performance and best-in-class fit.

- / ELITE PERFORMANCE.
- / LIGHTWEIGHT.
- / BEST-IN-CLASS FIT.

SIZES	JR 2.5–5.5 (full and half sizes)
	SR 6–11.5 (full and half sizes)
FIT	Standard (D) = TRUE R
	Wide (E) = TRUE W
	Wide (W) = only available in SR

TRUE SHELL TECH

TRUESHELL: Our proprietary co-molded carbon fiber and thermoplastic shell construction creates a thermoformable boot. TRUESHELL tech wraps the toe box, eliminating any weak points around high-impact areas and providing superior protection.

TRUE FELT TONGUE: Featuring the TRUE felt tongue, providing that classic fit and enhanced comfort.

SHIFT

ULTIMATE SHIFT IN PERFORMANCE: The all-new SHIFT holder features enhanced BenchChange technology, allowing for faster blade replacement.

HYDROFOAM

HYDROFOAM: Our antimicrobial, moisture-wicking liner keeps your feet dry while providing superior comfort through its multi-density foam construction.

Personalized FIT SYSTEM

PERSONALIZED FIT SYSTEM: The TF9 insole system integrates fit inserts to accommodate low, mid, and high arch feet. Placement of the fit inserts are marked on the insole for easy positioning to ensure proper fit regardless of your arch type.

CORE TECHNOLOGIES

The TF7 delivers many of the performance benefits of our proprietary skate technology. The thermoformable fiberglass one-piece shell delivers best-in-class fit while providing unmatched performance. The TF7 also features the versatile SHIFT holder for rapid blade replacement.

- / DYNAMIC PERFORMANCE.

PROUD TO INTRODUCE OUR DESIGNED BY LEFEVRE 2022 PRO STOCK GOALIE COLLECTION

Lefevre started making goalie masks in the basement of their family home in 1967. They created their first pads in 1987. After more than 25 years of designing and manufacturing products for other companies, lefevre made history and launched its own line in 2020.

Since 1967, lefevre has been delivering products inspired by function and crafted by form for goalies performing at all levels of the game.

FAMILY-RUN, FUELLED BY PASSION

 DESIGNED by **LEFEVRE**

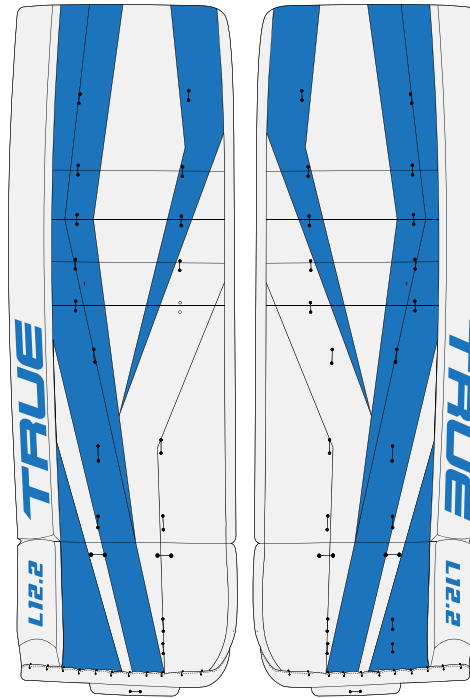

L12.2

ENGINEERED FOR MOBILITY

These flexible boot pads were crafted for performance, agility, and movement. They combine innovation, clean design, and a vintage look with knee rolls.

FRS (FAST ROTATION SYSTEM)

LOCATED ON THE CALF, FRS INCLUDES DOUBLE INTERNAL ADJUSTABLE STRAPS FOR INCREASED STABILITY AND EVEN WEIGHT DISTRIBUTION.

BOOT DENSITY
STIFF

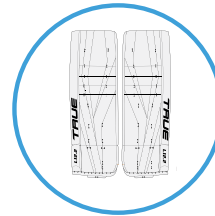

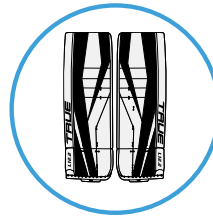

BREAK(CORE & OUTER ROLL)
SINGLE BREAK CORE & SINGLE BREAK OUTER ROLL

LEG STRAP
NO STRAP

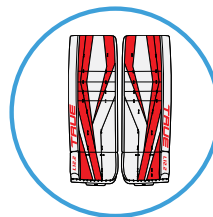

LEG CHANNEL
TIGHT FIT FRS

TOE ATTACHMENT
PRO LACE ARMOUR

KNEE ZONE
RECESSED/WITH OUTSIDE REMOVABLE KNEE WRAP

BOOT STRAP
NO STRAP

KEY FEATURES

1 FLEXIBLE BOOT CORE

To enhance mobility and control in all different game situations. Better power pushes and seal to the post in the reverse VH.

2 SEAL TO THE ICE

The top of the pad is made entirely of high-density foam, which allows for a superior seal to the ice.

3 FRS (FAST ROTATION SYSTEM)

Allows the pad to be connected to the leg and making it very responsive without compromising rotation and stability when dropping to the ice.

4 KNEE ROLL

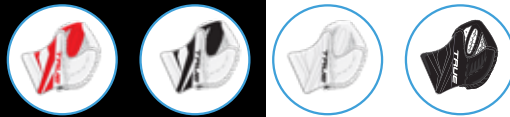

For the one that likes the more aesthetic look of knee rolls, flatter than previously, providing better rebound control.

PADS AVAILABLE IN THE FOLLOWING SIZES:

KEY FEATURES

1 SEAL TO THE ICE

The top of the pad is made entirely of high-density foam, which allows for a superior seal to the ice.

2 FRS (FAST ROTATION SYSTEM)

Allows the pad to be connected to the leg and making it very responsive without compromising rotation and stability when dropping to the ice.

3 FREEDOM OF MOVEMENT

Better skate and ankle mobility due to a flat leg and boot channel and shorter FRS.

4 FLAT FACE LOOK

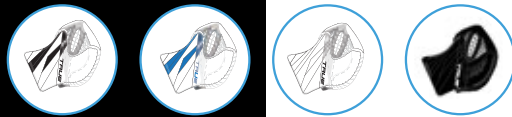

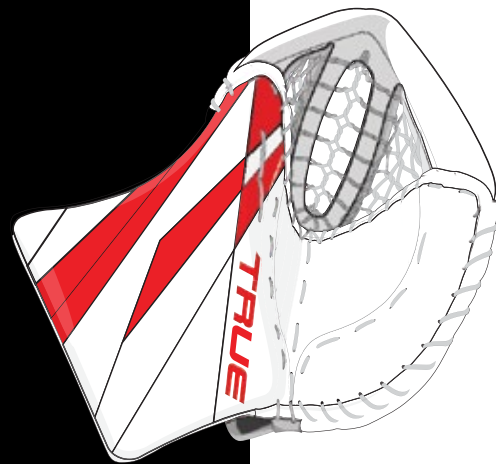

Allows for more predictable rebounds versus knee rolls.
